THE OUR LADY OF GRACE CHAPEL IN THEY-SOUS-MONTFORT

© ComCom Terre d'Eau

The eponymous Chapel was built at la Petite They in the XVIIIth Century in honor of Our Lady of Grace. It has undergone numerous repairs during the last century, but its liturgical activity is limited with only one mass per year : the day after Pentecost.

This building is part of the municipality's heritage and represents an advantage because few municipalities in the area have two religious buildings for so few inhabitants.

HERITAGE

THE THERMAL GALLERY

The gallery, a symbol of the thermal life, is listed in the inventory of Historic Monuments. Vittel Municipality, through its renovation project, wishes to preserve and value its heritage, but also pursue its objectives of economic and touristic development. Built in 1856 under the leadership of Louis Bouloumié, the gallery underwent in-depth architectural modifications until 1970.

This building in metallic structure, creates a bond between the thermal constructions, their annexes, and the park, and becomes the new hallmark of the resort. In 1930, the whole framework was covered with stucco, and the pillars were wrapped up with concrete.

The thermal gallery was built in three stages during 1897, 1901 and 1905, with Charles Garnier's contribution.
